

JET PACK MACHINES PVT. LTD.

PACKAGING CONCEPTS & AUTOMATION

WHY JET PACK

Jet has been in the industry since 1994 with vast experience in packaging machines building. JET PACK indigenously designs and develops its own machines. With a team of experienced engineers with sound engineering and packaging machinery knowledge it can design and manufacture customized packaging equipment as well. Jet Pack has its in house parts manufacturing facility with a wide range of machineries like CNC, Grinding, EDM, and other conventional machine, this helps in manufacturing the parts components not only with precision but also in time.

Jet Pack has a wide range of packaging machines/equipments like Over Wrapping Machines, Flow Wrapping Machines, Filling Machines, Capping Machines, Foil Sealing machines, Sleeving machines, banding machines.

Jet Pack also manufactures packaging machines line with complete integration of the of different packaging machines like powder/Cream/Liquid filling machine + Foil Sealing + Capping machines + labeling /sleeving machines etc.

New Addition from Jet pack , Completely Automatic Aerosol filling and sealing lines with integration Feeding device of Cans, Filling machines, Automatic Valve Placing and Crimping, Leakage Testing I Water bath, Coding, Actuator and inner placing as well as depucking machine.

COMPLETE LINE

Capsule Filling Machine Line

Perfume Filling Machine

Machine Name	Capsule Filling Machine Line	Perfume Filling Machine
Line Integration	Turntable + Ultra Violet Unit + Tablet Counting & Filling + 4 Head Capping + Induction Sealer + Coding Unit + Turntable	Perfume Filling + Crimping
Total Power	10 kW	2 kW
Speed	Up to 40 Bottles Per Minute (Depending on the size and Shape of the Bottles.	Up to 40 fills per minute (Depending on the Fill quantity and the Shape & Size of the Bottle.
Products	Tablet & Capsule	Perfume
Advantages	<ul style="list-style-type: none"> • Accurate filling, owing to its unique design features. • High speed operation. • No container No fill operation • Replacement of Manual Labor. Means more cleaner and hygienic packaging • Low wastage of material. • Stable operation and lower noise. • PLC control system (optional). • Output: - Up to 40 Bottles per Minute depending on the size of the bottles. 	

COMPLETE LINE

Automatic Toilet Cleaner Filling Line

Cream / Shampoo Filling Machine Line

Machine Name	Automatic Toilet Cleaner Filling Line	Automatic Cream Filling Line
Line Integration	Liquid Filling + Plug Placing & Pressing + Capping Machine	Ultra Violet Unit + Two Head Twin Nozzle Cream Filling Machine + 4 Head capping Machine + Turntable
Total Power	5 kW	6 kW
Speed	Up to 120 fills per minute (Depending on the Fill quantity and the Shape & Size of the Jars/Containers).	Up to 60 fills per minute (Depending on the Fill quantity and the Shape & Size of the Jars/Containers).
Products	Toilet Cleaner, Sanitizer, phenyl, Liquid Hand Wash etc.	Food Honey, Spread Cheese, Liquid Chocolate, Jam , Jelly, Sauce.Pharmaceutical Ointment.Cosmetic Cream, Lotions, Sun Screen, Shampoo.
Advantages	<ul style="list-style-type: none"> Simple Design Lower initial Cost Minimum labor requirement Better Efficiency Good Filling accuracy Low Wastage of material Capability to handle a wide range of products & pack Sizes. 	<ul style="list-style-type: none"> Simple Design. Lower initial cost. Minimum Labor Requirement. Automatic 2 Head 2 Nozzle Cream Filling Line gives Better efficiency. Accurate weight control. Low wastage of material. Capability to handle a wide range of products & pack sizes. Accurate high filling, owing to its unique design features, Minimum leakage.
Filling Quantity		10 Gm- 1 Kg (with The Help of Change Part)
